

DIDSBURY PIONEER

VOL XXXI. No. 18.

DIDSBURY, ALBERTA, THURSDAY, MAY 3, 1934

\$2.00 per year. 5 cents a copy.

Fishing Season in North Will Open May 16th

Fishermen throughout the province are waiting impatiently for May 16, on which date they will be able to cast their lines in Alberta's fine lakes and rivers for pike and pickerel, perch and goldeyes.

Prout may be caught after that date in the North Saskatchewan and Red Deer rivers and their tributaries, and in Cold Lake.

The date of the opening of the season for trout and grayling in waters from the International Boundary north to the Bow River and in the Athabasca and its tributaries, is not until a month later, June 15.

The fee for non-resident anglers this season has been reduced from \$5 to \$2.25, which covers all classes of fish. The resident fee is still \$2.25 for all fishing save perch, pike, pickerel and goldeyes for which residents of the province do not require permits.

WEDDING

A quiet wedding was solemnized in the Lutheran Church, Didsbury, at 3:30 o'clock Sunday afternoon, April 22nd, when Miss Pauline Walder, daughter of Mr. and Mrs. J. Walder, of Didsbury, became the bride of Rex G. Bussard, son of Mr. and Mrs. A. D. Bussard, of Olds. Following the ceremony the happy couple motored to Calgary for a short honeymoon.

These two young people are well-known throughout the district, Mrs. Bussard having been employed by the Sharp Circuit Shows, and is still the only lady projectionist in Alberta.

After their return they will reside at Didsbury.

Changes in Train Time.

The changes in the railway timetable came into effect Sunday. The principal changes are the evening train south which leaves at 5:12, 40 minutes earlier than previously, and the Sunday train going south, which leaves at noon instead of in the evening.

Following is the schedule:

NORTHBOUND	
521	2 55 a.m. daily
523	10 18 a.m. daily except Sun.
525	6 44 p.m. daily
SOUTHBOUND	
522	5 a.m. daily
524	12 51 p.m. daily
526	5 12 p.m. daily except Sun

Livestock Producers Demand Commission

A commission of investigation on all phases of processing and marketing of livestock has been demanded by the livestock producers of the province in a statement presented to the Stevens committee of investigation now in session at Ottawa, the Hon. George Hoadley, minister of agriculture, presenting the statement.

The livestock producers emphasized that the livestock industry of Alberta was in an extremely serious state, and its rejuvenation depended upon 4 main points: stabilization of prices paid producers, securing of a larger share of the consumer's dollar for the producer, lowering of transportation and marketing costs, and the widening of markets.

Mrs. J. C. Stevens was a Calgary visitor Tuesday.

LOCAL & GENERAL

Olds is advertising its Annual Sports Day to be held May 24th.

The Fish & Game Association will hold its annual meeting at the C.P.R. depot on Monday, May 14.

Mr. Bert Greenman was in town this week from his home in the Raven River district.

Miss Margaret Ranton, Lacombe, spent the weekend with her parents Mr. and Mrs. E. G. Ranton.

Mr. Jack Currie is relieving at the Innisfail branch of the Jenkins's Groceries.

Messrs. Geo. Hawkes, Ormond Phillipson and Elmer Evans came home from the University of Alberta on Monday, having finished their studies for the term.

A pleasant time was spent at the home of Mr. and Mrs. Walter Irwin when their son Edward, little Vera Irwin and Orpha Gabel celebrated their birthdays together. Everyone reported a jolly good time.

Mrs. Sharp is opening her home today (Thursday) for a miscellaneous shower in honor of Mrs. Rex Bussard (nee Pauline Walder). Friends kindly accept this as a cordial invitation.

We regret to report that Mr. Geo. Watson the local shoemaker has been ill for several days. He was removed to the Hospital on Tuesday, but we hope he will soon be around again.

Mrs. H. W. Gabel has returned from her holidays at the home of Mr. and Mrs. Walter Irwin, and this last weekend at the home of Mr. and Mrs. Stanley Nelson and family in Calgary.

C. E. Reiber is exhibiting in his office window an interesting picture of Didsbury's Baseball Team of 1913. The players were C. E. Reiber, Lorne Good, R. Blue, J. A. Adam, Jas. Pirie, D. Stewart, Gilbert Howe, D. Whiteside, Earl Grant, and W. J. Scheidt.

We hear that a number of the boys around town are getting anxious these days. In March they each ordered a suit from a travelling salesman—and of course paid their deposit, but up to the time of writing they haven't heard anything more of the suits. Apparently it pays to know who you are buying from.

Harry Gabel is trying nature's hair restorer—he's going without a cap these days.

There will be a Celebration of the Holy Communion at St. Cyprian's Anglican Church on Sunday morning at 10:45.

Mrs. McIlw moved to Innisfail this week, where her daughter, Miss Elva has a position with the telephone department.

Miss Kathleen Pitt and Miss Annie Currie, of Calgary Normal School, spent the weekend at their homes here.

Mr. Chas. Wrightson left this week for Innisfail where he will have charge of the butcher shop in the G. W. West store.

Miss Irene Grant and Miss Wynne Stulder entertained their friends to tea at the home of Mr. and Mrs. Stulder on Saturday.

There will be no Lutheran services conducted either at Didsbury or Westcott on Sunday. Rev. J. Kurung will be serving the Beisker district that day.

Mrs. Roberts, who purchased the Lantz farm last fall, and daughter Winifred, returned to England on Tuesday. They sail on the S.S. Duchess of Atholl.

Mr. and Mrs. S. Hutchinson and family of Calgary were dinner guests of Mr. and Mrs. Marcellus on Sunday. After dinner they drove to Red Deer.

Carstairs will hold their annual stampede on July 4th. Bert Boycock is to manage the show—and the big boy knows his rodeo stuff like nobody's business.

Mr. J. Beck, of Claresholm, has joined the staff of Sharp's Circuit Shows. He is highly recommended as a projectionist and holds a first-class license.

Mr. A. Bishop accompanied by his son Bill drove to Drumheller on Sunday and returned with his daughter Mrs. F. R. Smith and children, who will spend the summer here.

Farmers Welcome Rain.

With wheat-seeding well advanced farmers welcomed the first general rainstorm of the season which fell the beginning of the week, covering practically the whole of the province and extending into Saskatchewan.

The rainfall stretched from Edmonton, where showers turned into snow, to the southern boundary, and will prevent soil-drifting which was reported to be getting severe in many districts.

Wheat-seeding is progressing very well in this district and by the end of the week probably 75% of wheat will have been sown. Many fields of wheat are already above ground and with the moisture received the grain will cover the ground before there is any danger of further drifting.

Golf Club Meeting.

The annual meeting of the Golf Club was held Monday evening and the following officers elected:

President, Mr. E. G. Ranton
Vice-President, Mr. Geo. Julien
Secretary, Mr. G. McKenzie-Grieve
Executive: Messrs J. McGhee, A. Brouse and C. E. Reiber
Membership Committee: Messrs. T. Johnson and Geo. Julien.

WEEKLY JOKE

A judge was pointing out that a witness was not necessarily to be regarded as untruthful because he alters a statement made previously. "For instance," he said, "when I entered this court today I could have sworn I had my watch in my pocket, but then I remembered I had left it in the bathroom at home."

When the judge arrived home that night his wife said, "Why all this bother about your watch, sending four or five men for it?"

"Good heavens," exclaimed the judge, "what did you do?"

"I gave it to the first one who came, he told me right where it was."

Go North, Young Man!

It may be that some natural law of compensation works in these things! Just at a time when Western Canada was beginning to accustom itself to the new viewpoint that it cannot grow wheat to its heart's content, along comes a new realization of its potentialities in another direction that fans the flame of its optimism.

The realization is, of course, that in the great pre-Cambrian areas sweeping northwest from the Ontario-Manitoba boundary lies wealth of mineral resources which, of itself, is sufficient to guarantee a great and glorious future for this western country. Development which began in the rock formations of Ontario and which later spread through the same structures in Central and Northern Manitoba, shortly will become manifest in Northern Saskatchewan. This eventually will compensate the prairie regions for the apparently finite glory of their wheat fields.

Youth has suffered as result of economic depression in these western provinces due to scarcity of employment and the narrow field of opportunity open to them in a period of financial stringency and industrial stagnation. Many have been unable to secure a foothold, and have now reached adulthood without attaining that independence without which the term is barren and comfortless. They feel circumstances over which they had no control, and concerning which they had no voice, have robbed them of a birthright—and they are looking to the political leaders for assurance their claims are not being ignored. It is opportunity they seek, opportunity to take their place in the full, responsible citizenship of the country.

While agriculture will remain the great source of income of the prairie provinces, it is obvious that, under present world conditions, opportunities for youth in the path their pioneer fathers took are singularly limited in scope and variety. Obviously then, the salvation lies elsewhere. Opportunities must be created—and created not only for the rising generation now clamoring for its place in the sun, but created also for a future influx of new population which is essential to the attainment of a balanced economic structure upon which future development of these provinces depends.

Immigration, at the moment, is an unpopular topic—and rightly so. Yet wider home markets must be created not only for the produce of the prairie farms, not only for consumers' goods from the industrial east, but also for the products of these countries of the world prepared to absorb our surplus agricultural production. Sooner or later, then, the problem of immigration must be tackled systematically and courageously. It will be necessary, therefore, to make intensive preparations that our own youth and our new neighbors may find employment and thus be enabled to contribute their share to the country's development.

Obviously, the one alternative to agriculture upon which Saskatchewan (particularly) has depended in the past, is a parallel development of other great primary resources of which the possibilities already are known.

Saskatchewan (and we speak of Saskatchewan particularly because there the problem is acute) has abundant deposits of lignite coal, commercial clays, sodium sulphate and other non-metallic minerals throughout its prairie lands. Oil and gas, which have proved so valuable to Alberta, is being avidly sought in different sections of the province. But away to the northward lies this great pre-Cambrian shield, world's greatest storehouse of precious metals, of which the possibilities already are known. Saskatchewan (and we speak of Saskatchewan particularly because there the problem is acute) has abundant deposits of lignite coal, commercial clays, sodium sulphate and other non-metallic minerals throughout its prairie lands. Oil and gas, which have proved so valuable to Alberta, is being avidly sought in different sections of the province. But away to the northward lies this great pre-Cambrian shield, world's greatest storehouse of precious metals, of which the possibilities already are known.

These thoughts are inspired by a recent statement relative to the Flin Flin mine which straddles the northern Saskatchewan-Manitoba boundary. There, an investment of \$20,000,000 is producing an annual income of \$7,000,000 and maintaining a community of some 4,500 persons. The major portion of the Flin Flin ore body rests in Saskatchewan, and it is only a matter of time when similar development must ensue in the confines of the flint province.

Reports from the Saskatchewan hinterland indicate abundance of mineral resources, and that they are not yet laid out into commercial production is adding new in the history of mining. Even the great Flin Flin, discovered in 1915, remained undeveloped for a space of ten years thereafter, but, once the complexities of its ore were unraveled, development came quickly.

While agriculture has languished, mineral production in Canada has continued to advance. In 1933, Canadian mines produced \$220,000,000 as against \$161,225,000 in 1932, and the outlook for the future is extremely favorable.

Here then lies a fellow field for the activities of forward-looking government and the energies of ambitious youth! Here lies the West's way out!

A Very Good Idea

The Prince of Wales, who knows a thing or two, was asked what he thought of civilization. He said it was a good idea and he thought it would start it. Those who have an impression that civilization exists had better read over the sermon on the Mount which furnishes a basis for civilization in the true.

Plenty Of Snow

If all the snow that blanketed Port Arthur, Ontario, between Oct. 15, 1933, and Feb. 28, 1934, were packed into cubes of one foot square each, they would pile up to end there would be a pile of snow around the world and enough for another quarter lap. Statisticians estimate this snowfall in Port Arthur during that period of 49 inches of nearly 1,000,000 tons.

A Tired, Worn Out Woman Can't Make a Happy Home

There is no happiness in the home when the mother is sick and worried by the never ending household duties. She gets run down and becomes nervous and irritable. She has no time for her family, and she can't sleep, and gets up in the morning feeling as tired as she went to bed, and is discouraged and discouraged.

Milburn's H. & N. Pills will soon convince women it is not necessary to suffer, as they build up the nervous system and bring back the former health and vigor.

Grim Battle For Life

Esquimaux Marooned On Ice Floe For Month Before Being Rescued

Trapped on an ice floe in Amundsen Gulf while attempting to cross the 150-mile stretch from their native village on the southern shore of Banks Island to the mainland, half a dozen Esquimaux fought a grim battle for life early this winter as they drifted up and down the gulf for a while month before they were finally able to land, when almost starved, at the Pence Point post on the Arctic coastline.

The story of the near tragedy was brought down from the Arctic by Patsy Andrew and Jorgen Klengenberg and their partner, J. P. Lythgoe, who operates a string of three trading posts on Victoria and King William Islands in the Arctic ocean. The four traders arrived in Edmonton on their way to Vancouver for a brief holiday before returning to their posts on the ice-locked islands which are the northern-most points upon which human beings, either native or white, live.

The three Klengenberg brothers, sons of the famous Capt. Charles Klengenberg, pioneer navigator and fur trader in the Arctic, who died in the summer of 1931 at Vancouver, were born in the Arctic and have been operating their father's string of trading posts. With the exception of their school days spent at Vancouver and brief visits "outside" every few years, they have spent their lives in the Arctic.

Lythgoe, their young friend and partner, went north with them for the first time from Vancouver three years ago.

DRIVES HIMSELF TO WORK AT 82

And Still Plays a Little Golf

How many of us, when we are 82, will be the equal in health and activity of this vigorous old Scottish engineer? In a letter he says:—"I arrived here from Scotland on the 7th April 1879. I am over 82 years old. I drive my Ford car 40 miles over hills and dales to a factory and can still play a little golf. I have taken the little dose of Kruschen Salts in my cup of coffee every morning for some years, and I believe it is keeping me in good health and enabling me to keep on working at the factories as engineer."

Whether you are still in your teens or past your prime it is neither too late nor too early to start on the "little daily dose." Just a tiny, tasteless pinch of Kruschen Salts in your morning coffee or tea. They ensure internal cleanliness, and keep the blood-stream pure. New and re-energized blood is sent coursing to every fibre of your being. Rheumatism, headaches, indigestion and backache all pass you by.

Whole Wheat Rolls

- 1 cup milk
- 1 yeast cake
- 2 tablespoons lukewarm water
- 2 tablespoons Crown Brand Corn Syrup
- 1 teaspoon salt
- 1 cup flour
- 2 tablespoons Mazola
- 1 egg
- 1 1/2 cups whole wheat flour

Salt milk and when lukewarm stir in the yeast dissolved in the warm water. Beat in the white flour and let rise in a warm place until doubled in bulk. Cut down the dough and add the Mazola mixed with the beaten egg, the syrup, and the salt. Let rise again until double in bulk, then cut down and roll out. Cut into loaves with a round cutter about two and a half inches in diameter. Let the loaves rise until light on an oiled pan and then bake in a hot oven, about 400 degrees, for twelve minutes or more. On taking the rolls from the oven brush over with Benson's Golden Syrup. Some cooks give a flavor to their whole wheat rolls by adding a dash of ground lemon rind to their dough with the whole wheat flour. The above quantity makes 25 full-sized rolls.

Just A Mere Trifle

Godwin I hear that old Moneybags was waylaid and killed last night.

Refus. Is that so? Did the criminals get away with much money? Godwin No. The old man never carried more than a little small change around with him and so practically all he lost was his life.

W. N. U. 2440

DIXIE

PLUG SMOKING TOBACCO

Dixie Plug is the thrifty man's pipe tobacco, the smoke that gives more for the money. Cut this big plug the way you want it. Coarse or flake, long or short, to your taste, and more economical as well.

World's Largest Telescope

Twenty Tons Of Glass Used In Making Large Lens

Twenty tons of molten glass, to form the world's largest telescope "eye," were poured into a form at Goring, New York, recently, before a distinguished audience of scientists and thousands of laymen who taxed the hospitality of the famous glass works.

By nightfall the last ladle of brilliantly glowing glass was spread in the brick form which will stand for 30 months while the composition hardens. Ten hours were required to transfer the liquid glass from the furnace, where it has been heating since February 15, to the mould housed in a brick igloo.

It, as scientists anticipate, the 200-inch mirror emerges from the annealing tank flawless it some day will enable man to gaze into unfathomed depths of the great void beyond the earth. The astronomical vision if all steps of the experiment are as successful as those already taken will be increased 30 times in volume.

More than 36 per cent. of the houses in Scotland have only two rooms.

Use Ships As Prisons

When men in Spain mention in the future that they have been on a cruise they may be met with suspicious glances. Some of Spain's new prisons are floating ones. Because of the overcrowded conditions of old prisons following enforcement of the new Vagrancy Act, the government has chartered a few ships and put the superfluous prisoners in them.

Ask Mother— She Knows

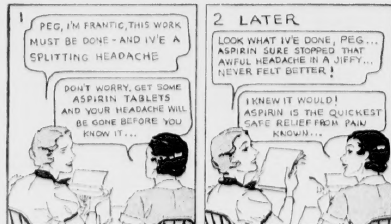

Mother took this medicine before and after the babies came. It gave her more strength and energy when she was nervous and rundown... keep her on the job all through the change. No wonder she recommends it.

LYDIA E. PINKHAM'S
VEGETABLE COMPOUND

At Crater Lake, Oregon, last winter the total snowfall was 879 inches, or more than 73 feet.

Union workers in Scotland are demanding higher wages.

Ease Pain, Headache in Few Minutes

For Quick Relief Say ASPIRIN—When You Buy

Now comes amazingly quick relief from headaches, rheumatism, neuralgia, ... the fastest safe relief, it is said, yet discovered.

These results are due to a scientific discovery by which an Aspirin Tablet begins to dissolve, or disintegrate, in the amazing space of two seconds after touching moisture. And hence to start "taking hold" of pain a few minutes after taking.

The illustration of the glass, here, tells the story. An Aspirin Tablet starts to disintegrate almost instantly you swallow it. And this is ready to go to work almost instantly.

When you buy, though, be sure you get ASPIRIN'S safe relief, be sure the name Bayer in the form of a cross is on every tablet of Aspirin.

WHY ASPIRIN
WORKS SO FAST

Drop an Aspirin Tablet in a glass of water. Note the BUBBLES it touches bottom. It has started to disintegrate.

What's done in this glass it does in your stomach. Hence its fast action.

MADE IN CANADA

Does Not Harm the Heart

French Explorer Expects To Blaze New Trail Over Rockies With The Aid Of Five Tractors

The broad back of the Rocky Mountains where they roll from Redfern Lake to the head of the Skeena river in British Columbia, is due for a heating this summer.

C. E. Bédouin, French explorer, engineer and business man, plans to do it with an expedition equipped with five tractors.

Hitherto this area, far north of rail lines or highways, has been traversed by trappers and Indians, and then only on sufferance that they be men of heart and knowledge of the wilds. Aeroplanes have dived over it, and the map-maker has put it on paper, but mostly the mountains have stood unbeaten.

It is gesture, this expedition of M. Bédouin, and an adventure. It has the spirit that makes men fly over oceans of ice, to leave it all unscathed and unchanged from what it was before it was known. The gesture in this case is not in bringing some new area to light, though much knowledge will undoubtedly be gained, but in the manner of the doing.

One of man's most sturdy inventions has been chosen, the tractor, designed to conquer scumpling places. The surface of the mountain areas will be torn and their valleys and peaks echo to the clang of a workaday machine. True, they will stand as indomitable as of yore when it is finished, and perhaps before it is finished, but perhaps before it is finished, they may not consent to be steam-rolled without claiming a toll of human victims—and therein lies the adventure.

The tractors will tread where ways can be found, and, otherwise will swing across canyons, or be positioned across rapid waters. The expedition will really go from Edmonton to Telegraph Creek, B.C., 1,100 miles, but the great test will be the way across the Rockies. Already a contract has been made with an airways company to help pick routes and lay caches of gasoline, and men are being sent out to cut trails in the lower levels of the early route.

The size of the party is not definitely announced, but Madame Bédouin will be along. She is the big game hunter, and plans to add British Columbia specimens to those she has brought down in many parts of the world. M. Bédouin himself is primarily interested in the exploration. The five tractors will involve five drivers and two engineers to take care of them. Then there will be guides, horses, and men to drive them. For where the tractor cannot go, horses must help as cables are scarce and the machines transported through the air. Included in the equipment will be a 4,000-pound hoist capable of lifting the 4,000-pound tractors. A rubber raft reinforced with logs will be used on rivers. Not only must mountains be crossed, but a way made over muskeg swamp.

The party should amount to a caravan of men, machinery and beasts when it sets out from Edmonton early in July to pursue its way to Fort St. John, B.C., and thence to Redfern.

For M. and Mme. Bédouin the expedition will be just the latest of many in various parts of the world. It was on a trip home from the South Seas that they learned of the adventure and big-game possibilities of British Columbia and the Yukon in Africa, and various parts of Asia, have been ploughed by their tractors. They both know British Columbia well. With a party which included 60 horses they staged a successful big-game hunt into the north of the province in 1922, getting as far as R. de la. In 1926 they hunted in more southern territory, that time with 37 horses to carry supplies.

Now the great broad back of a mountain range dares them and they have accepted the challenge.

Solicitor: "Oh, Mr. Newich, I just came to ask for a subscription to wards a cot for the new hospital." Newich: "A cot? Get a double bed and have it changed to me."

Farm Horse Prospects

Scarcity Of Horses In Canada Is Bound To Be Acute

There is today a very marked scarcity of big, sound, work horses and owing to the slackening off in breeding and the natural mortality in aged horses, the scarcity is bound to be acute during the next two years. From a breeding standpoint the industry is suffering greatly from a lack of high quality stallions of the draught breeds. Statistical returns indicate a decrease of stallions amounting to 8,000 head between the years 1930 to 1932, a situation which does not lend itself to a rapid increase in the horse population. Stallion owners report that the breeding season of 1933 was the most satisfactory experienced for some years, sires being used to an increased extent. The prospect for 1934, says the Agricultural Situation Bulletin, is considered to be even more favourable.

Vegetable Gardener's Luck

Take A Little Precaution In Planting The Seeds

There is no trick in growing vegetables. Householders have been heard to say, "I have no luck with a garden," but failure is often traceable to carelessness. Very small seeds are buried, larger seeds are crowded together in the rows, weeds are allowed to smother the young tender plants, the seed-bed is hard and dry, drainage is bad, and a thousand and one other factors all of which are controlled according to information from the Dominion Department of Agriculture. With regard to planting beans and peas there should be 2 inches in the soil; beet, cucumber, muskmelon, parsnip, radish, spinach, squash and turnip, one inch; Brussels sprouts, cabbage, carrots, cauliflower, lettuce, onion, pepper, and tomato, 1½ inch; corn, 1 to 2 inches, and celery, ½ inch.

Fortune In Paper Bag

A bedraggled old woman found lying on a sidewalk in San Francisco, Cal., clutching a paper bag in her hand, was taken to police headquarters, where it was discovered the paper bag contained \$4,076 in bills. The woman said the money represented her life savings as a servant and that she was afraid of banks.

By Ruth Rogers

THERE'S YOUTHFUL CHARM ABOUT A BLOUSE

Plaided taffets can be "tuck-in" or overblouse. This, ready as she always is with remedies for sartorial difficulties, has designed this smart shirtwaist blouse to suit many figures. A tuck-in blouse is most flattering to youthful figures.

However, for women who are not exceedingly slim, it is apt to give a huddled-up look. This season you can have your way about it. Wear it tuck-in or overblouse. The pattern provides for same. See over sketch for overblouse.

Striped necktie silks, plain crepe silks, handkerchief linen, cotton challis in necktie patterns, etc., are other nice mediums. It's simplicity itself to run it up on the sewing machine, and the saving is enormous.

Style No. 604 is designed in sizes 14, 16, 18, 20, 22, 24, 26, 28 and 30 inches bust.

Size 16 requires 1½ yards 36-inch material.

Price of pattern 20 cents in stamps or coin (cash is preferred). Wrap coin carefully.

Combined Air And Ship Route Across The Atlantic To Be Put In Operation This Summer

Prospective Wheat Yield

Many Factors Apparent That May Seriously Affect Western Prospects

Several factors are apparent at the present time which may affect the prospective wheat yield this year. According to "The Agricultural Situation" bulletin issued by the Dominion Department of Agriculture, drought over wide areas during the past five years has reduced reserve moisture and favourable conditions will have to be experienced throughout the growing season to offset the effects of climatic during the preceding seasons. Due to the emphasis being laid upon early seeding and the ploughing of stubble land before seeding for purpose of insect control some consequent reduction in acreage may be expected in the prairie provinces. Some reduction in average yield may be expected over large areas where grasshoppers and pest western cutworms will be present in outbreak numbers.

New Use For Honey

Manitoba Women Using Honey In The Place Of Sugar

Honey is "in the news" this spring in much the same way that tomatoes were last fall. When the Beekeepers' convention was held in Winnipeg the importance of honey to Manitoban housewives was amply set forth.

Women in the country and in the city have proved that honey is a Manitoba product whose uses have only begun to be explored. Canning, preserving, pickling and baking are now being done with honey instead of sugar. Sugar, furthermore, has to be bought, but the honey can be home-produced.

A Useless Sacrifice

A resident of Bristol, Eng., was fined to shillings by a magistrate on a charge he used water for his goldfish bowl during a recent water shortage. The accused admitted the charge but declared that he reduced his own baths during the period taking only two inches of the usual four so that his prized fish could have fresh water. Although he listened sympathetically to the story, the magistrate nevertheless ordered the fine paid.

Cool carts in England are being fitted with rubber tires.

A new combined air-ship route across the Atlantic, which will cut eight hours off the present crossing between Britain and Canada, will be put in operation this summer.

This new trans-Atlantic mail service, combining the ship-to-shore method is being planned by a Canadian air transportation company now being formed, and the British Imperial Airways.

A new route has been chosen by the Canadian and British companies, and the first stage will be by ship from England to Red Bay in the straits of Belle Isle, and thence by flying boat to Montreal.

The flying boats to be used for carrying the mail from ship to the mainland will be loaned to the Canadian company by the Imperial Airways.

It is estimated that the whole journey will occupy three days 22 hours, as against four days six hours, the best trans-Atlantic mail crossing so far achieved.

The prospect of a direct Atlantic crossing has been momentarily shelved by the British aviation authorities because no machine capable of achieving it has yet been constructed.

The present plan, however, is really intended to give the Imperial Airways a foothold upon to plan a direct crossing, while in the meantime experiments are being carried out with sea-drones to have the long haul necessary for a direct crossing.

The appearance of a machine which would be capable of a direct Atlantic crossing with a load of mail is considered to be not far distant, and the England-Australia race in October is expected to reveal an aeroplane which will go a long way towards filling the gap.

British air experts estimate that the machine which will win this race would be capable of a direct hop from England to England, a distance of 2,600 miles. A direct crossing of the Atlantic is only a little over 2,000 miles.

Machines of this kind are already under construction by one big British company, and their performance during the England-Australia race will be carefully checked by those who are interested in the Atlantic air route.

Demand Equals Supply

Prince George, B.C., Has No Bear Grease To Spare

The Canadian National Railway magazine says the Prince George, British Columbia, board of trade has notified its members that a Los Angeles man wants a regular supply of bear grease for hair tonic. He is not particular whether the grease comes from black brown or grizzly bear. Then a resident of Prince George advertised in the Prince George Citizen: "You do not need to send your bear grease to California. Local market will absorb all you have." Possessors of bear grease are advised to hold their supplies for a rising market.

Something We Would Miss

Spring And Summer Would Be Queer Without Birds

Some morning soon the clouds will be full enough to weaken you. Spring will outdo the sun. As it grows from day to day, you'll hear in it a promise of freedom from the furrows tending tasks of winter, of trudging through snow and slush, a promise of green fields and lady, trees of flowers and vegetables and fruits, of the busy hum of nature and of long twilight evening. "How nice to have the birds back!" you'll say to yourself. Have you ever stopped to think what would happen if they didn't come back?

Definition Of Nagging

A definition of the term "nagging" was propounded by Quebec's chief justice during the hearing of a divorce case at Montreal. "Nagging," said Chief Justice Gauthier, "is a constant repetition of an unpleasant truth."

BRITISH CLIMBERS START CLIMB OVER B.C. MOUNTAINS

An English party, comprising, bottom left to right E. J. Ring, M.C., Sir Norman J. Watson, Wing Commander E. B. Beauman, R.A.F., and Clifford White, the latter of Banff, has set out from Vancouver to conquer the snowy altitudes of British Columbia's coast range. The unique part of the expedition is these climbers are going to accomplish the difficult climb on skis. They are all noted for their prowess as mountain climbers, and it will be recalled that Beauman was a member of the expedition which conquered Mount Knap, in the Himalayas, 25,000 feet quite recently. Our top picture shows the type of British Columbia coast range over which the party will ski.

Arbor Day.

Arbor Day, which is observed on
May 7th, should bring with it some
definite accomplishment in the way
of beautification. The day is not a
statutory holiday, but the intention
is that it should be observed, with
special attention to school grounds.
No one can deny that most school-
yards throughout this and other
districts present an ugly but an
attractive, welcoming appearance.
This is not to be wondered at in view
of the fact that the schoolhouse in
many districts is the community
centre and represents to some extent
the attitude of the district. The
rush of seedling will be over about
the first week in May and those
interested in school appearance will
be able to devote a little time to
helping teacher and children plant
trees and shrubs. It is not difficult
to secure these and the later care
of them may be left as a charge
of the children. If interest were
taken by adults in the efficient
observance of Arbor Day at the
schools, every schoolyard would be
well bordered with young trees.
There would be shrubs and hardy
perennials planted and in the course
of a few years the whole appearance
of these institutions would be altered.

The cleaning up and painting,
incident to the day, are a reasonable
feature of schoolwork, and later
care and encouragement of growth,
is a valuable part of school training.
It would be a fine thing if the
trustees of each district would lead in
a real tree-planting drive on May 7—
Arbor Day, 1934.

Advice Available on Eradication of Couch Grass

Scientific methods for the control
and eradication of Couch Grass, a
weed which is spreading over West-
ern Canada, is made in a pamphlet
prepared by Dr. G. P. McRostie,
Professor of Agronomy, and W. Til-
desley, B.S.A., Assistant on Weed
Research, of the Agricultural College
of Manitoba University, on behalf
of the Northwest Grain Dealers'
Association. Line elevator companies
operating throughout the prairie
provinces have financed scientific
studies of the weed problem which
has been underway for the past
three years. The results of these
investigations have now been publish-
ed in pamphlet form and are being
distributed free at all line country
elevators.

Couch Grass was introduced in
Western Canada through small lots
of seed sent out to farmers in this
country by friends in Europe during
the latter part of the last century,
and before proper inspection facilities
were established on seeds imported
into Canada. The chief analyst of
the Dominion seed branch at Winni-
peg has found that approximately one-
half of the Bromus Grass Seed
sent to the seed branch for inspection
contains couch grass.

The pamphlet dealing with Couch
Grass outlines methods for control
and eradication of this weed in a
manner that the ordinary layman
can easily read and follow. Any
farmer troubled with Couch Grass
in his fields should obtain a copy.

Garnet Wheat to be Segregated.

It is quite probable that Garnet
wheat will be taken out of the con-
tract grades of Canadian wheat and
placed in a separate grade. Advice
from Ottawa would indicate that
steps have already been taken to
bring about this change. However,
it is hardly likely that the change
will be made this year now that
seeding is well underway.

The problem caused by mixing
Garnet in No. 2 Northern is larger
than generally supposed. Grain ex-
porters of Vancouver pointed out the
disadvantage of the practice very
clearly. It seems to be a fact that
overseas buyers are using more dis-
crimination in buying No. 2 North-
ern from Canada and avoiding to
some extent the ports where there
are large quantities of Garnet along
with the Marquis types of wheat.

Good Prices for Horses.

Horses are once more in keen
demand throughout the West, and
recent horse sales in Alberta realized
good prices. At Medicine Hat in
March prices ranged from \$40.00 to
\$117.50 for individuals, and to \$180
for team. At Lacombe prices aver-
aged \$68.00 a head for over 200
horses sold, the top price paid being
\$152.50 for individuals and \$300
for team.

Junior Farm Clubs.

Junior farm clubs in the province
will be more numerous than ever
this year, the demand for this class
of agricultural extension work hav-
ing grown tremendously in the past
few years. There will be over 50
wheat clubs, an increase of 45 from
last year, and in all about 110 seed
grain clubs, and about 100 livestock
clubs, of which about 70 will be
swine clubs.

1934 Chevrolet has New Engine and Knee Action Wheels

MANY IMPROVEMENTS

The Chevrolet Six for 1934, with
an engine of new design delivering 80
horsepower, with knee-action front
wheels, and with increased all-round
performance, is considered the most
extensively improved annual model
since Chevrolet became a Six. The
new front wheel springs are enclosed
in an oil-filled housing attached rigid-
ly to the frame, making a neat and
efficient type of individual suspen-
sion. Larger and more luxurious
bodies by Fisher, with improved no-
draft ventilation, are offered. The
picture above shows the Master Six
special sedan, and below is seen one
of the coupe models.

Alberta News Items.**Arbor Day.**

Alberta's Arbor Day has been fixed this year for Monday, May 7.

Nurseries at Jail Farms.

Small nurseries which in future will be supply centres for certain distribution of small trees for farmers and rural districts, have been established this spring at the two principal jails, Fort Saskatchewan and Lethbridge. Seedlings are now being sent to these institutions and to the Bonanza mental hospital from the central provincial nurseries at Oliver. The grounds at these institutions will be utilized for development of these seedlings under proper supervision, and in a couple of years or so trees should be available for distribution for beautifying of farms, school grounds, etc.

Jutland Notes.

Mr. George Burns and family motored to Calgary last Saturday.

We wonder why Topsy is making so many trips east this last winter?

Mrs. A. E. Thompson Senior and son Albie spent Sunday afternoon with Mr. and Mrs. Joe Clark.

Mr. and Mrs. Walter McCulloch spent Sunday with Mr. and Mrs. A. Jenkins.

Mrs. A. E. Thompson Junior was a Sunday visitor with her sister, Mrs. Leon Doll.

Mr. and Mrs. James McChalk and family were the Sunday dinner guests of Mr. and Mrs. Harry Richardson.

Many Visitors to Alberla Park.

More than 240,000 visitors were registered at the seven national parks within Alberta during the year from March 31, 1933 to March 31, 1934, according to the report of the dominion parks commissioner just issued. Of these over 139,000 were registered at Banff Park, 59,000 at Elk Island Park, east of Edmonton, 11,000 at Jasper, 35,000 at Waterton Lakes, and 12,000 at Whitecourt Buffalo Park.

OCCASIONAL WIFE

by EDNA ROBB WEBSTER

Author of "Joretta," "Lipstick Girl," Etc.

SYNOPSIS

Camilla Hoyt and Peter Anson, young and in love, marry secretly, desiring to live their own lives apart until Peter is able to provide for her. Peter is a young, ambitious inventor trying to win a competition for a scholarship abroad and Camilla is the adopted daughter of a wealthy family. She is not to inherit money when she comes of age and so is studying commercial art in the hope of landing an agency job. Others in the story are Avis Werth, another wealthy girl who is destined to marry Peter, Sylvia Todd, Peter's model, and Gus Matson, his former roommate with whom he has quarrelled. At a party at an exclusive club Peter entertains Camilla's guests with impersonations of famous names of the members of the party go to a cabaret to continue the gaiety. Peter and Camilla slip off to the beach by themselves and fall asleep on the sand. When they awake it is early morning and Avis and her boy are standing near them. This makes it necessary for Camilla to announce before the party that she and Peter are married. Downman and Wees, an advertising agency, where Camilla has submitted some of her work, send for her and tell her they have a new account which requires unusual treatment of juvenile art. The critics were enthusiastic about her work, and Mr. Wees offers her a salary of \$50.00 a week to start and a prospect of having it doubled. She tells Peter of her good fortune in securing employment. Mrs. Hoyt is also informed that Camilla has obtained work and is going to

leave the Hoyt household. Avis Werth rents a studio on the same floor as Peter, and invites him to have lunch there. He accepts reluctantly, but is favorably impressed with his visit.

(Now Go On With The Story)

CHAPTER XXXVII.

"All that has nothing to do with your problem, Peter," Camilla changed the subject abruptly. "Right now, what you need isn't more work, but more time and freedom from anxiety. I can take care of both of us now, and I am going to do it until you get established in your own work."

Peter rose hastily to his feet, almost upsetting Camilla with his sudden movement. "Not much, you're not!" he snorted with anger and disgust. His voice sounded cold, so that it chilled Camilla to the bone, at the same time his eyes blazed fire. She never would have believed that Peter, her gentle, adoring, amiable Peter, could be so angry with her. And over nothing at all. She was experiencing what every woman does sooner or later after marriage: the revelation of some fault or ignoble characteristic in the man she loves, and which she has not dreamed he possessed.

Her surprise at his reaction silenced her for a few moments, while Peter stood and gazed sullenly out the window. Finally, she ventured, "But, Peter, won't you be reasonable?" Is there any woman in your doing odd work to pay your expenses when you are so rushed for time on your important work, when I can just as well help you?"

He waited around to face her and demanded slowly, as if he measured his words, "Was that all you had to say? You ought to know, you're a doctor!"

She attempted to laugh, as if this first quarrel must be a joke and they were only acting. "Oh, there were so many clauses in that silly contract that it would take a lawyer to remember them."

"Now you think it was a silly contract, do you? Well, get this! When I agree to do a thing, I do it. I'm no quitter! I suppose you are even sorer you married me, now. I don't blame you, and you can break the whole contract any time you want to."

Like all quitters, every woman aggravated now unreasonable. In Peter's overcast state of mind, his chagrin at his poverty, and his unrecognized jealousy of Camilla's reasoning, was paralyzed.

Camilla gasped helplessly. "Why, Peter! Please, don't talk like that. You must be ill. You are ill. You are working and worrying too much. You have to let me help you."

"Don't say that again!" he commanded angrily. "That shows what you think I am, a weakling. Just because you got started ahead of me, you're laughing at me or feeling sorry for me, and that's all the same. If you think I like it that people will soon be telling me how proud I should be of my wife, you're dead wrong. There's nothing in the world I despise and dread more than living on the income of a wife who is more successful than her husband. I won't do that, even if I never do any better than I am now."

He had to stop for breath. But even that time did not soothe Camilla. It only hurt her cruelly, caused little shivers of pain to tremble through her, radiating from her heart, where a great heavy hurt troubled and ached.

"But you are doing splendidly, dear Peter. It is just that your work takes more time to develop. You really are doing so much more than

I am, and it will be worth much more in the end, too. But you can't starve while you wait for the results!"

"I won't starve. I never have. And don't offer me your charity!"

"Why, Peter," she pleaded. "I was not offering you anything. What I have, is yours. And if anything I have can help with your future, I am doing it just as much for myself as for you, don't you see? Can't I invest my money in our future?"

"No, I don't see it that way and never will. You refused to let me take care of you and now you expect me to depend on you."

"But that's different. If you had to take care of me, it would hurt your work. I can help you because of my work."

"Which is exactly the whole thing. You don't need to remind me of it."

Camilla sighed helplessly. Words were useless in Peter's present mood. She never had seen him like that and didn't know what to say or do. Presently, she got up from her chair swiftly and went over to put her arms around him and rest against him like a hurt, bewildered child.

"All right, darling. Let's not talk about it any more. I'm sorry—I suggested anything. I want you to do whatever makes you happy."

"Happy?" he scoffed. "See how back and looked up into his face quickly. His eyes wavered and turned aside without meeting hers, stubbornly. In her arms, she felt his big body rigid, unyielding, and she seemed to try to draw away from her. Camilla's thoughts floundered desperately, but she could think of nothing to say. She just dropped her head on his broad, linen-covered breast and lightened her arms around him. His arms hung listlessly at his sides, as if he were powerless to move them."

Finally, she said softly, without looking up at him, "Peter, don't you love me?"

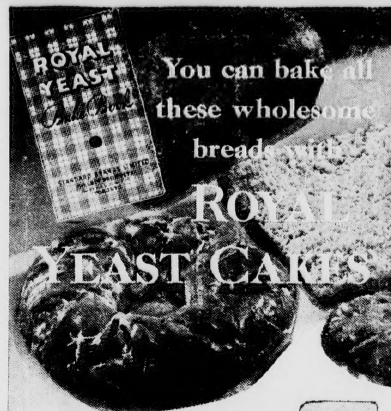

He moved impatiently and drew away from her. "Of course, You know I do. That only makes it worse."

It was as if he had plunged a knife into her breast before, and now he gave it a quick twist to increase her pain.

"Makes what worse?" she asked weakly.

"Why, if I didn't love you and had no pride—that is, if I hadn't the two greatest things in life—I would think it was pretty odd to have a wife who could make enough for both of us, as some fellows do."

"I think you are making a mountain out of a sand pile," her own resentment began to rise, "but I have told you I would say no more about

Full leavening power is assured with Royal Yeast Cakes. Individually wrapped in air-tight waxed paper, they reach you in perfect condition. And they stay fresh for months. No wonder Royal Yeast Cakes have been the standard for over 50 years. Today—they are preferred in 7 out of every 8 Canadian homes where dry yeast is used.

FREE— The "Royal Yeast Cake Book" is sent when you bake at home. 23 tested recipes—loaf breads, rolls, buns, coffee cakes! Address: Standard Brands Ltd., Fraser Ave. and Liberty St., Toronto, Ont. Ask, too, for leaflet, "The Royal Road to Better Baking."

Buy Made-in-Canada Goods

It. Forget it, and let's go out for dinner somewhere."

"What with? I can't buy dinner for two with fifty cents. I get paid tomorrow, but that doesn't help me today. Besides, I owe most of what is coming to me."

She would have said, blithely, had they not just quarreled over that very thing. "Well, come along. I have money," but she dared not venture that suggestion now. Or she might have proposed that they go back to her apartment and have dinner. There was plenty of food in the little iceless refrigerator. But that would be like pouring hot oil on his wounds of false pride.

But was it false pride, she asked herself anxiously, and had to admit that it was not, to a certain extent. She was proud of Peter—that he

possessed such pride, even if he did exaggerate its maintenance under these particular circumstances.

(To Be Continued)

THAT DEPRESSED FEELING IS LARGELY LIVER

Wake up your Liver Bile

—Without Calomel

You are "feeling pink" simply because your liver is not pouring its daily two pounds of liquid bile to your system. Digestion and elimination are both hampered, and your entire system is being poisoned.

What you need is a Liver Stimulant. Something that will soothe the liver, stimulate it to work, and purify the blood. That's what Liver Bile does. It's the only thing that will do this. It's the only thing that will do this. It's the only thing that will do this.

It takes a strong man to resist an invitation to make a speech.

Lowest Price for Highest Quality

GARDEN AND FIELD SEEDS

BY arrangement with one of the largest, oldest and most dependable sources of supply in Canada (commanding the cream of the world market), I am now in a position to sell for the **LOWEST PRICE QUOTED IN THE CHEAPEST SEED CATALOGUE, ADVERTISEMENT OR SEED LIST PUBLISHED**, the very choicest **GOVERNMENT TESTED** seeds it is possible to procure, in 3c. 4c. (and up), **SUPER** size packets, or in **BULK** to fill any requirement.

Make up your order from any seed list, advertisement or see my selection of over 1,000 varieties; I will fill the order to your entire satisfaction—probably at less money in some varieties, but in no case higher than the lowest price quoted to you elsewhere.

I will also hand you "MERCHANTS NEW WAY COUPON" worth 25c in **FREE** Seeds

I expect no business on sentiment. This is a direct and drastic challenge on the one fundamental of price for both **GARDEN AND FIELD SEEDS**, the best that nature and experienced cultivation have produced.

Buy your seeds from your Local Merchant, the store that serves you faithfully 365 days every year.

Let me buy your continuing confidence with consistent service

Do me a courtesy and yourself a real service by calling and verifying this offer. Before you buy seeds anywhere see me.

How Acid Stomach Makes Itself Known to You

HERE ARE THE SIGNS:
Nervousness, Frequent Headaches,
Neuralgia, Feeling of Weakness,
Indigestion, Loss of Appetite,
Loss of Appetite, Mouth Acidity,
Nausea, Auto-intoxication

WHAT TO DO FOR IT:

TAKE— 2 teaspoonsful of Phillips' Milk of Magnesia in a glass of water every morning when you get up. Take another teaspoonful 30 minutes after eating. And another before you go to bed.

OR— Take the new Phillips' Milk of Magnesia Tablets—one tablet for each teaspoonful as directed above.

If you have Acid Stomach, don't worry about it. Follow the simple directions given above. This small dosage of Phillips' Milk of Magnesia acts at once to neutralize the acids that cause headache, stomach pain and other distress. Try it. You'll feel like a new person.

But—be careful you get genuine Phillips' Milk of Magnesia, or Phillips' Milk of Magnesia Tablets when you buy—25c and 50c sizes.

ALSO IN TABLET FORM

Each tiny tablet is the equivalent of a teaspoonful of genuine Phillips' Milk of Magnesia.

MADE IN CANADA

Didsbury Pioneer - Established a quarter of a century.

Golf Notes.

Ed. Ranton made a score of 41 at the golf links Sunday. Apparently his handicap is all shot for the rest of the season.

One prominent member spent a lot of time fishing at the creek on Sunday. It must be a jinx course for a left-hand driver.

All Bruso Sr. is improving—he lowered his stroke by 10 in his last game.

It is suggested that all golfers should purchase their "plus-fours" locally.

We noticed that Jim Kirby was using a new club. What happened to the old one, Jim?

Tommy must be tender below the knees—he apparently only wears plus-fours when the weather's fine.

Frank likes to inspect No. 8 green before he goes around the course.

Best Fisher must be thinking about fishing—from the fish hooks he makes on his drives.

LOCAL & GENERAL

The Rev. F. S. Spies will preach at the services of the Evangelical Church on Sunday.

Mr. Herman Shultz will move next week into the house vacated by Mrs. McEow.

Mr. and Mrs. W. A. McFarquhar drove to Calgary on Wednesday. Mrs. McFarquhar remained to spend a short visit with her parents.

Mr. S. P. Megil, of the Roseland Flour Mill, delivered 8 tons of flour to the Sundre and Caroline districts last week.

Last week was a busy week at the C.P.R. yards. Fourteen cars of grain and five cars of livestock were shipped out.

Flowers are blooming early in Didsbury this year. Mrs. J. L. Clarke picked both tulips and daffodils out of her garden last week.

The W.C.T.U. meeting has been postponed until May 17 instead of May 10. Further announcement next week.

At a meeting of the church board of Knox United Church held last week it was decided to paint and decorate the church and beautify the church grounds.

A social meeting of the Leos Rebekah was held at the home of Mrs. Gander on Wednesday evening last. Bridge was enjoyed and the honors went to Mrs. Pearson.

A number of friends paid a surprise visit on Mr. and Mrs. C. H. Adelsrud on Tuesday evening in honor of their 15th wedding anniversary. Cards and music were enjoyed.

A large number of people took advantage of the excursion to Calgary last weekend. Among those who went to the southern city were Mrs. Kaufman, Mrs. W. Gillie, Mrs. Spence, Mrs. Austin and Elizabeth, Miss Lucile Smith, Miss Lela Hunsperger and Miss Parrott.

KNOX UNITED CHURCH NOTES

The service at Westcott United Church will be held at 10 a. m. until further notice.

The Sunday School will meet next Sunday at 11:45 a. m. instead of 11 o'clock, and will so continue until the last Sunday in October.

Burnside Notes.

Lone Pine W.L. will meet at the home of the secretary, Mrs. N. Eckel on Thursday, May 10.

Born: On Monday, April 23rd, to Mr. and Mrs. Jack Boulton, a son.

The Misses Rosie and Ardella Bittner and Gus Bittner spent Sunday with Mr. and Mrs. Otto Bittner.

Miss Helen Pross spent Thursday and Friday of last week with Miss Una Jenkins.

Mr. George Metz, Miss Alberta Metz and Miss Edna Siler spent Friday in Calgary.

Mr. and Mrs. Chris Elbert spent Sunday evening with the latter's parents, Mr. and Mrs. E. Schneider at Torrington.

Mr. and Mrs. Hugh McLean, Sadie and Gertie, Art, Marsh, Sam McAllister and Fred Doll were the dinner guests Sunday of Mr. and Mrs. N. Eckel.

Westcott Notes.

The April meeting of Westcott W.L. was held at the home of Mrs. Sheldon Owens, with 16 members and 3 visitors present. Roll-call was answered by a question pertaining to Institute work. The minutes of the last meeting (February) were read and adopted. A questionnaire on "Legislation" was conducted by Mrs. J. Robertson, and a paper on "Agriculture" was read by Mrs. Sheldon Owens, following which Mrs. Shoultice gave her concluding lesson in the Home Economics short course. The Institute donated a sum of \$5 towards child welfare work. A recitation by Miss Mildred Shoultice and a number by Mrs. Shoultice Sr. were very acceptable and concluded a most pleasant afternoon. The National Anthem was sung and lunch was served. Mrs. McFarlane will have the May meeting.
